

COVID-19 Testing Now Available

- RT-PCR tests validated and offered pursuant to the FDA's EUA
- Standalone COVID-19 and COVID-19+RPP panels available
- Results turnaround of 24-48 hours from sample receipt
- MedTek21 supports ordering and results delivery

High-quality COVID-19 results within your existing workflow

COVID-19, otherwise known as the novel coronavirus, has created a global pandemic with a high rate of transmission. Speed and certainty of detection within patient populations are key to identifying and isolating potential outbreaks and enabling employees to provide business continuity services.

MedTek21 supports standalone COVID-19 test panels, as well as COVID-19+RPP panels that also provide insight into over 26 additional bacterial and viral respiratory pathogens. MedTek21 has partnered with AccessDx to enable the procurement, ordering, and results delivery of the AccessDx COVID-19 test panels for MedTek21 clients. The AccessDx tests has been made available pursuant to the FDA's Emergency Use Authorization (EUA) for diagnostic testing in CLIA-certified laboratories.

Multiple Options Available

There are three COVID-19 test options available to best suit the needs of patients, care providers, and critical workforce members:

COVID-19 Express Test – Fast, cost-effective, high quality clinical diagnostics

COVID-19 Critical Care Reservation – **Guaranteed** same-day swab kits and 24-48 hour turnaround for mission-critical samples

COVID-19+RPP Advanced Test – Identifies COVID-19 infections along with 26 additional viral and bacterial respiratory pathogens

Speed, certainty, and support

- PCR detection in line with current guidance
- Aids in quick clinical decision making
- Reduces unnecessary disruptive protocols
- Peace of mind for patients and families
- 24-48 hour turnaround from sample receipt
- Same-day shipping of test kits

Seamless results delivery

MedTek21 provides fast, efficient access to patient reports as soon as they are available, enabling them to be utilized within the existing care workflows.

Options for your care providers are also available

MedTek21's lab partner also offers testing programs for employee and caregiver groups to ensure they can continue to best serve your patient base. Ask your representative for more information.
